<h3>1. House filters , Commercial filters</h3>
Pressure tanks : Clack-USA , Control valves : Clack-USA , Inside media: Clack-USA
Capacities : 1 m3/hr to 20 m3/hr.

 <h3>2. Degasifiers to remove H₂S, CO₂ ♦ , Oxidizing Fe , Mn , ..etc.</h3>
Material : SS304/316 , Blowers Europe made 220/380 VAC 50/60 Hz. , packing materials : Plastic and or UPVC
Capacity : water flow up to 100 m3/hr . Applications : Pretreatment system , PH adjustment for RO permeate water .

 <h3>3. Water filters and /or softeners</h3> <p></p> <p>
Control system: Manually and/or automatic by clack control valves , PLC & Motorized valves , PLC & solenoid valves , stager and actuator valves , and PLC & actuator valves .
Capacity: determined by client .
Application: Multi-media filter , carbon filter , water softener , polisher ♦ etc.
Tank material: FRP , carbon steel .
Shape: Vertical or horizontal</p>
