1. Ozone System :

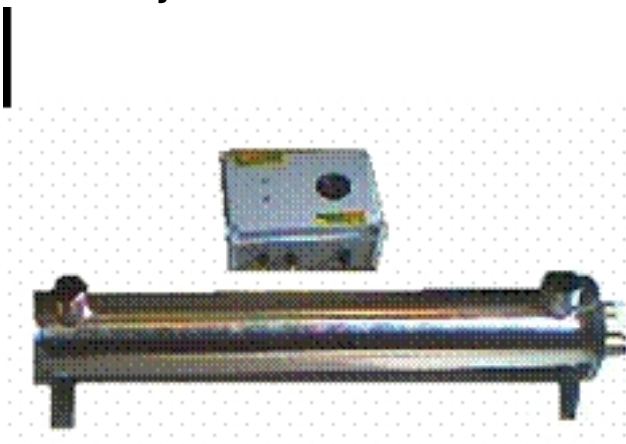

Ozone generator : Pacific ozone -USA

Control system : automatic by ORP Controller or dissolved Ozone controller , Mixing tank is SS304L/316L, valves is SS304/316L, Water trap compatible with ozone , Ozone vent , Frame SS304 , mazzei Injector , SS304/316 circulation pump Europe origin , air inlet oil filter , Capacity : determined by client .

Application : water bottling , and all ozone applications .

For ozone generator details : www.pacificozone.com

2. UV System : still under modification

Aqua Purification Systems supply UV systems easy to install, and easy to operate, industrial sized ultra violet systems . We specialize in a wide flow rate range up on 350 gpm.

UV series ultraviolet sterilizers were designed for both residential and commercial/industrial applications. For easy servicing the UV lamp can be changed without interrupting the water flow. Electronic ballast features constant output current range independent of voltage or frequency and improved surge protection.
